SUMMARY

Motivated computer engineering student with practical knowledge in programming and development. Strong problem-solving skills and a passion for learning and growing through real-world projects. Dedicated to applying technical expertise to create effective solutions.

SKILLS

Programming Languages: Java, Python
Software Development Concepts: Object-Oriented Programming (OOP), Data Structures
Web Development: HTML/CSS
Frameworks: Flask
Database Management: SQL, JDBC, firebase
Version Control & Tools: Git, GitHub

Education

SVERI's College Of Engineering   *Pandharpur, Maharashtra*

Bachelor's in Computer Science & Engineering   *(Sep '23 – Present)*

PROJECTS

Vaccination Management System (Java, JDBC, SQL, Swing)
– Designed a Java-based GUI application for user registration and vaccination appointment booking
– Implemented secure database storage with JDBC, reducing data retrieval time by 30%
– Enhanced user experience by integrating an intuitive interface

Beauty Parlour Management System (PHP, Python, XAMPP, SQL)
– Developed a full-stack web application with a secure login & email verification system
– Integrated automated online booking confirmation via email for seamless transactions
– Provided admin tools for booking approvals and notification**s**

HealthMate: Personalized Wellness App (Firebase, Android)
– Built a Firebase-authenticated fitness app with a custom schedule generator
– Implemented BMI Calculator, Exercise Video Suggestions, and Water Tracking
– Enabled real-time data storage using Firebase backend services

CERTIFICATIONS & Training

Java Programming   *Great Learning*
Python Programming   *Scaler*
Vocational Training in Machine Learning (Python, HTML, Flask)   *WachStum Venture Pvt.*
Industrial Training in Java Programming (JDBC, SWING, AWT)   *Vikramaa Technologies*
